# COMTRONICS ORDER FORM

## HELMET SIZING:

To determine helmet size, measure around your head just above the ears and eye-brows.

Take this dimension in inches and divide by 3.14. This will give your HAT size.

## EXAMPLE:

For a head measuring 23.5 inches, dividing 23.5 by 3.14 yields 7.48 inches which equates to a 7 1/2 HAT size.

People who wear a 7 1/2 HAT size should order an Extra-large (XL) Helmet.

CONVERT FROM HAT SIZE TO HELMET SIZE

**15% RESTOCKING FEE**  
ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE
